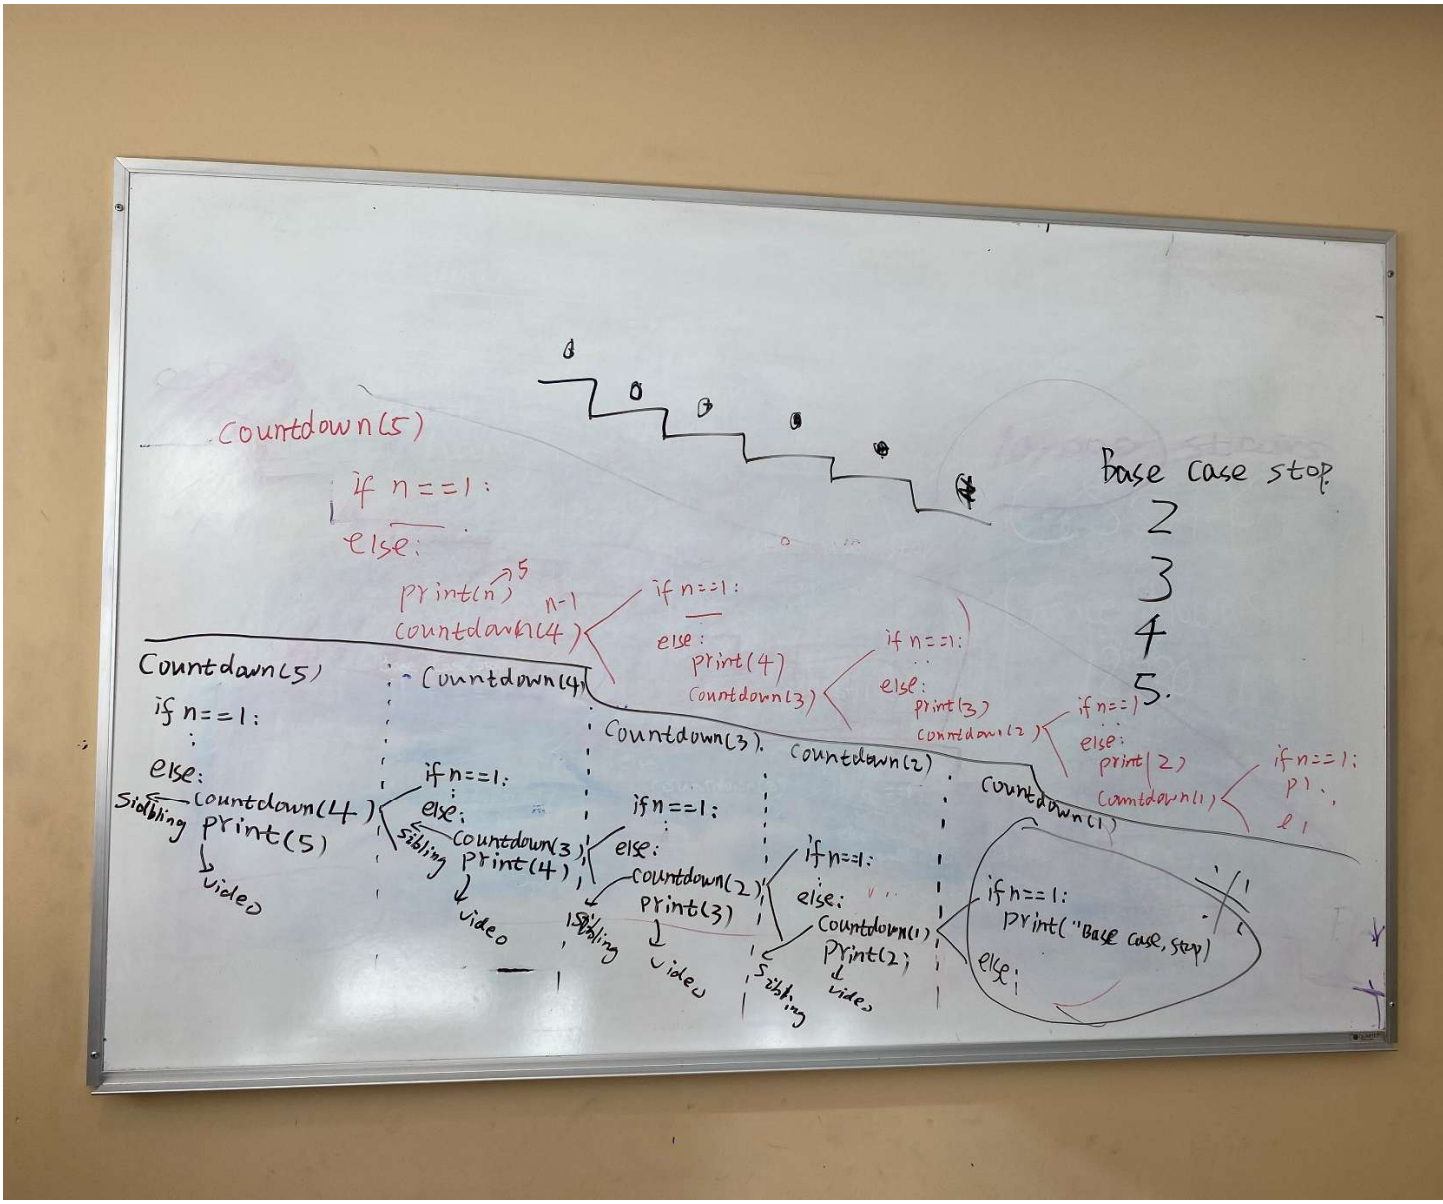
4/11/2026

The execution flow of the countdown function in lec_26.04.11.py



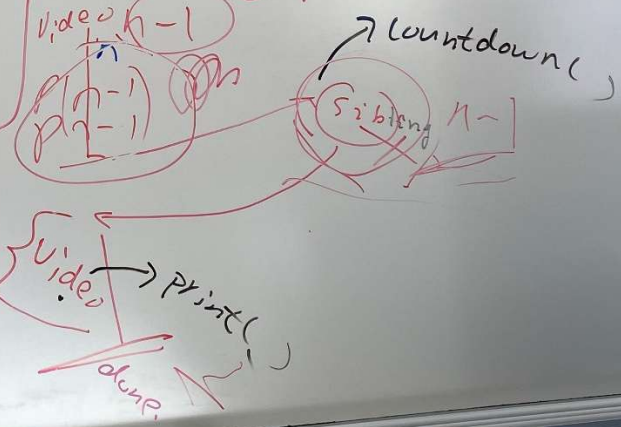
```
def Countdown(n):
    if n==1: n
        print("Base case, stop!")
    else:
        Countdown(n-1)
        print(n).
```

Countdown(5)

5-1 4

0

① a=3

② b=4


③ print(a+b)
